TUTOR LIST

The attached list of tutors has been provided as a courtesy to parents considering tutorial services for their children.

No attempt has been made to rate or screen the tutors or to determine adequate compensations and the district provides no services other than this list of names. All arrangements for services rendered, including the rate of pay, the quality of the service and any other terms and conditions of employment are to be arranged by the tutor and the parties contracting the services.

This list is updated frequently. No attempt is made to contact the tutors to determine their availability and tutor names are not removed unless the tutor takes the responsibility to notify us to remove his/her name from the list.
